

Chess Pieces

Directions: Cut out each piece along the dotted lines. Fold the pieces in half along the solid center line, and fold down the tabs on the top and bottom so they overlap beneath each piece. Apply a drop of white glue or a small piece of tape to fasten the bottom tabs together.

Chess Pieces (Pawns)

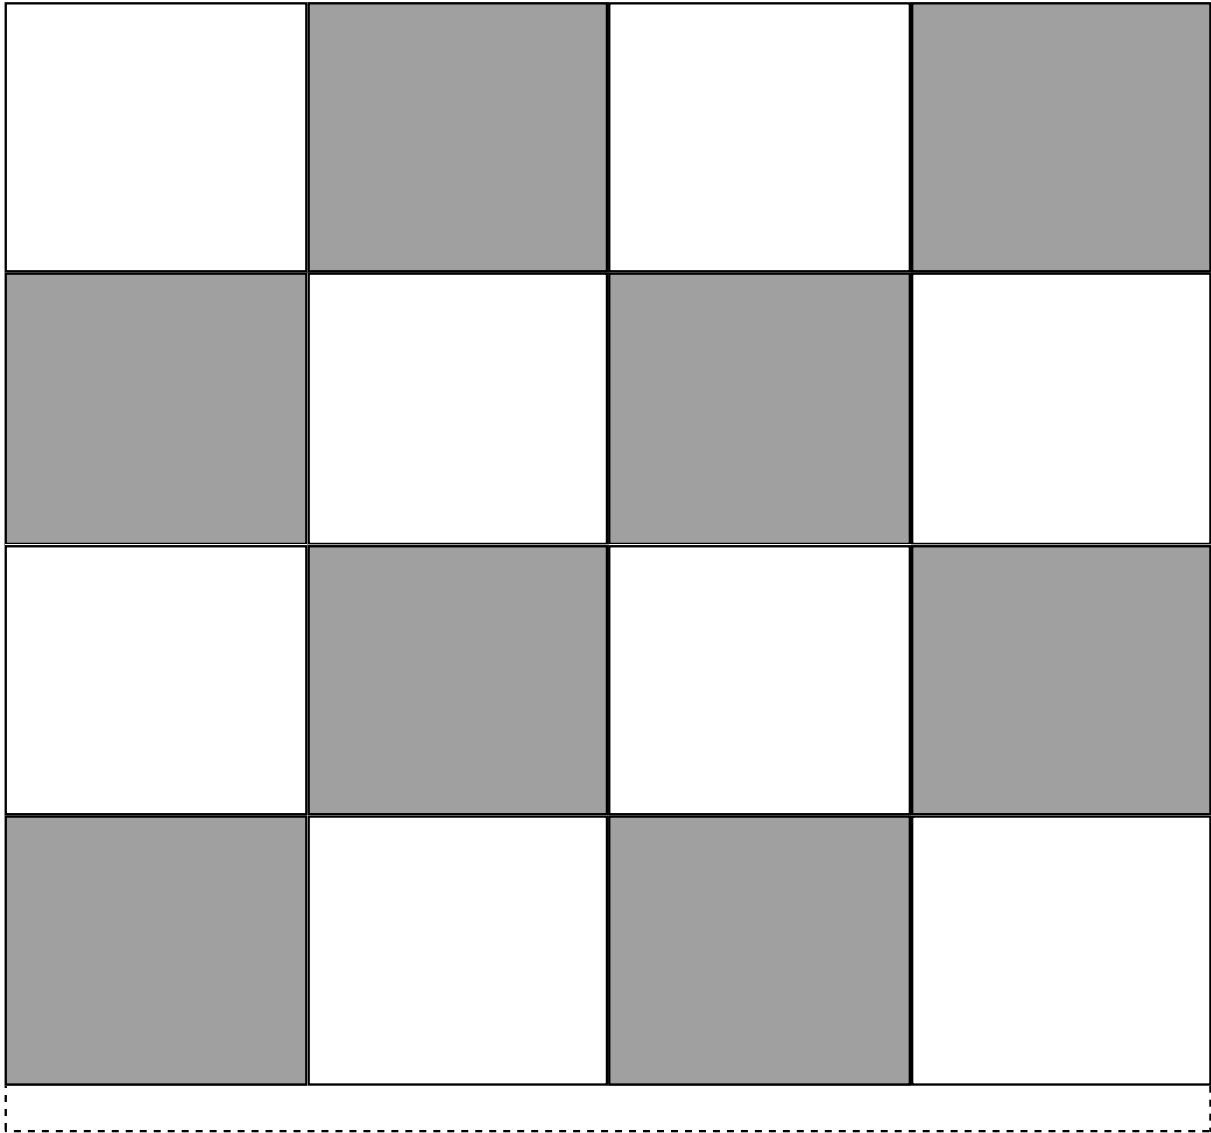

Chess Board (Left Side)

Print two copies of each side. Cut out each side of the chess board and join the two pieces together with a thin layer of white glue or tape along the connecting tab. Join the two large halves together to form the complete board.

Chess Board (Right Side)
